Individual Contributions

Program Code Writing

Cody – Project reports, reports 1, 2, 3

Florian – Android app, java coding

Use cases: Visitor Registration, User login, view data and ranking, sharing to social network

Jie – Web design, php coding

Use cases: Visitor Registration, User login, view data and ranking, upload data from device, display graphs, manual data input

	Jie	Florian	Cody
1. Coding	50%	50%	-
2. Unit Testing	50%	50%	-
3. Web Design	100%	-	-
4. Integration Testing	50%	50%	-
5. Debugging	50%	50%	-
6. Doc's	75%	25%	-
7. Data Collection	100%	-	-
8. dBase	100%	-	-
9. Flyer	33.33%	33.33%	33.34%
10. Slides	-	-	100%
11. Project Management	75%	12.25%	12.25%
12. Algorithm testing/ nonfunctional req./user interface	75%	25%	-

Our group had decided to split the work up individually as Jie worked the coding in php, Florian on the android application and Cody on the reports. We chose this way because we were short-handed with only 3 group members and this way all members could equally contribute to the project.
